1. Product and Company Identification

Product Code: CSL26
Product Name: Denatured Alcohol
Reference #: 1625.5

Manufacturer Information
  Company Name: W. M. Barr
  2105 Channel Avenue
  Memphis, TN  38113
  Phone Number: (901)775-0100
  Emergency Contact: 3E  24 Hour Emergency Contact           (800)451-8346
  Information: W.M. Barr Customer Service              (800)398-3892
  Web site address: www.wmbarr.com

2. Composition/Information on Ingredients

Hazardous Components (Chemical Name)
  CAS #           Percentage  OSHA PEL  ACGIH TWA  Other Limits
1. Ethyl alcohol  64-17-5  45.0 -50.0 %  1000 ppm  1000 ppm  No data.
2. Methanol       67-56-1  45.0 -50.0 %  200 ppm   200 ppm   No data.
3. Methyl isobutyl ketone  108-10-1  1.0 -4.0 %  100 ppm   50 ppm   No data.

Hazardous Components (Chemical Name)
  RTECS #         OSHA STEL  OSHA CEIL  ACGIH STEL  ACGIH CEIL
1. Ethyl alcohol  KQ6300000 No data.  No data.  No data.  No data.
2. Methanol      PC1400000 No data.  No data.  250 ppm  No data.
3. Methyl isobutyl ketone  SA9275000 No data.  No data.  75 ppm  No data.

3. Hazards Identification

Emergency Overview
  Danger!  Flammable!  Keep away from heat, sparks, flame, and all other sources of ignition.  Do not smoke.
  Extinguish all flames and pilot lights, and turn off stoves, heaters, electric motors and all other sources of ignition
during use and until all vapors are gone.  Beware of static electricity that may be generated by synthetic clothing
and other sources.

OSHA Regulatory Status: This material is classified as hazardous under OSHA regulations.

Potential Health Effects (Acute and Chronic)

Inhalation Acute Exposure Effects:
  Vapor harmful.  May cause dizziness, headache, watering of eyes, irritation of respiratory tract, irritation to the
  eyes, drowsiness, nausea, other central nervous system effects, spotted vision, dilation of pupils, and convulsions.

Skin Contact Acute Exposure Effects:
  May cause irritation, drying of skin, redness, and dermatitis.  May cause symptoms listed under inhalation.  May
  be absorbed through damaged skin.

Eye Contact Acute Exposure Effects:
  May cause irritation.

Ingestion Acute Exposure Effects:
  Poison.  Cannot be made non-poisonous.  May be fatal or cause blindness.  May produce fluid in the lungs and
  pulmonary edema.  May cause dizziness, headache, nausea, drowsiness, loss of coordination, stupor, reddening of
  face and or neck, liver, kidney and heart damage, coma, and death.  May produce symptoms listed under
  inhalation.
Chronic Exposure Effects:
May cause symptoms listed under inhalation, dizziness, fatigue, tremors, permanent central nervous system changes, blindness, pancreatic damage, and death.

Signs and Symptoms Of Exposure
No data available.

Medical Conditions Generally Aggravated By Exposure
Diseases of the liver.

OSHA Hazard Classes:
HEALTH HAZARDS : N/E
PHYSICAL HAZARDS : N/E
TARGET ORGANS & EFFECTS: N/E

### 4. First Aid Measures

#### Emergency and First Aid Procedures

**Inhalation:**
If user experiences breathing difficulty, move to air free of vapors. Administer oxygen or artificial respiration until medical assistance can be rendered.

**Skin Contact:**
Wash with soap and water.

**Eye Contact:**
Flush with large quantities of water for at least 15 minutes. If irritation from contact persists, get medical attention.

**Ingestion:**
Call your poison control center, hospital emergency room or physician immediately for instructions to induce vomiting.

#### Note to Physician
Poison. This product contains methanol. Methanol is metabolized to formaldehyde and formic acid. These metabolites may cause metabolic acidosis, visual disturbances and blindness. Since metabolism is required for these toxic symptoms, their onset may be delayed from 6 to 30 hours following ingestion. Ethanol competes for the same metabolic pathway and has been used as an antidote. Methanol is effectively removed by hemodialysis. Call your local poison control center for further instructions.

### 5. Fire Fighting Measures

**Flammability Classification:** OSHA Class IB

**Flash Pt:** 45.00 F  Method Used: SCC

**Explosive Limits:**
LEL: 1.00  UEL: No data.

**Autoignition Pt:**
No data.

#### Fire Fighting Instructions
Self-contained respiratory protection should be provided for fire fighters fighting fires in buildings or confined area. Storage containers exposed to fire should be kept cool with water spray to prevent pressure build-up. Stay away from heads of containers that have been exposed to intense heat or flame.

#### Flammable Properties and Hazards
No data available.

#### Extinguishing Media
Use carbon dioxide, dry powder, or foam.
Unsuitable Extinguishing Media

No data available.

### 6. Accidental Release Measures

#### Steps To Be Taken In Case Material Is Released Or Spilled

**Clean-up:**
Keep unnecessary people away; isolate hazard area and deny entry. Stay upwind, out of low areas, and ventilate closed spaces before entering. Shut off ignition sources, keep flares, smoking or flames out of hazard area.

**Small spills:**
Take up liquid with sand, earth or other noncombustible absorbent material and place in a plastic container where applicable.

**Large spills:**
Dike far ahead of spill for later disposal.

### 7. Handling and Storage

#### Precautions To Be Taken in Handling

Read carefully all cautions and directions on product label before use. Since empty container retains residue, follow all label warnings even after container is empty. Dispose of empty container according to all regulations. Do not reuse this container.

#### Precautions To Be Taken in Storing

Keep container tightly closed when not in use. Store in a cool, dry place. Do not store near flames or at elevated temperatures.

### 8. Exposure Controls/Personal Protection

#### Respiratory Equipment (Specify Type)

For OSHA controlled work place and other regular users. Use only with adequate ventilation under engineered air control systems designed to prevent exceeding appropriate TLV. For occasional use, where engineered air control is not feasible, use properly maintained and properly fitted NIOSH approved respirator for organic solvent vapors. A dust mask does not provide protection against vapors.

#### Eye Protection

Safety glasses, chemical goggles or face shields are recommended to safeguard against potential eye contact, irritation, or injury. Contact lenses should not be worn while working with chemicals.

#### Protective Gloves

Wear impermeable gloves. Gloves contaminated with product should be discarded. Promptly remove clothing that becomes soiled with product.

#### Other Protective Clothing

Various application methods can dictate the use of additional protective safety equipment, such as impermeable aprons, etc., to minimize exposure. A source of clean water should be available in the work area for flushing eyes and skin. Do not eat, drink, or smoke in the work area. Wash hands thoroughly after use. Before reuse, thoroughly clean any clothing or protective equipment that has been contaminated by prior use. Discard any clothing or other protective equipment that cannot be decontaminated, such as gloves or shoes.

#### Engineering Controls (Ventilation etc.)

Use only with adequate ventilation to prevent build-up of vapors. Open all windows and doors. Use only with a cross ventilation of moving fresh air across the work area. If strong odor is noticed or you experience slight dizziness, headache, nausea, or eye-watering -- Stop -- ventilation is inadequate. Leave area immediately.
### 9. Physical and Chemical Properties

SARA (Superfund Amendments and Reauthorization Act of 1986) Lists:

Sec.302:
EPA SARA Title III Section 302 Extremely Hazardous Chemical with TPQ. * indicates 10000 LB TPQ if not volatile.

Sec.304:
EPA SARA Title III Section 304: CERCLA Reportable + Sec.302 with Reportable Quantity. ** indicates statutory RQ.

Sec.313:
EPA SARA Title III Section 313 Toxic Release Inventory. Note: -Cat indicates a member of a chemical category.

Sec.110:
EPA SARA 110 Superfund Site Priority Contaminant List

TSCA (Toxic Substances Control Act) Lists:

5A(2):
Chemical Subject to Significant New Rules (SNURS)

6A:
Commercial Chemical Control Rules

8A:
Toxic Substances Subject To Information Rules on Production

8A CAIR:
Comprehensive Assessment Information Rules - (CAIR)

8A PAIR:
Preliminary Assessment Information Rules - (PAIR)

8C:
Records of Allegations of Significant Adverse Reactions

8D:
Health and Safety Data Reporting Rules

8D TERM:
Health and Safety Data Reporting Rule Terminations

Other Important Lists:

CWA NPDES:
EPA Clean Water Act NPDES Permit Chemical

CAA HAP:
EPA Clean Air Act Hazardous Air Pollutant

CAA ODC:
EPA Clean Air Act Ozone Depleting Chemical (1=CFC, 2=HCFC)

CA PROP 65:
California Proposition 65

EPA Hazard Categories:

This material meets the EPA 'Hazard Categories' defined for SARA Title III Sections 311/312 as indicated:

[ ] Yes [X] No Acute (immediate) Health Hazard

[ ] Yes [X] No Chronic (delayed) Health Hazard

[ ] Yes [X] No Fire Hazard

[ ] Yes [X] No Reactive Hazard

[ ] Yes [X] No Sudden Release of Pressure Hazard
