

ODOR GENIE AND MOISTURE ABSORBER

Odor Genie's special charcoal formula destroys odors at the molecular level. Place one in each bilge compartment, the head, the galley, and the forward and aft cabins to naturally absorb unpleasant odors and replace them with a fresh berry scent.

If your boat has been stored for long periods, and covered with a tarp, or doesn't dry out in between uses, you may have an excess moisture problem, which creates a damp, dank, musty smell. DampRid's Moisture Absorbers are excellent for removing excess humidity and musty odors from boats and other vehicles.

Odor Genie, \$5.50; 4-pound Moisture Absorber, \$14.85
